

HEALTH AND SAFETY HANDBOOK

By law, not only does an employer have a duty under the *Health and Safety at Work Act* to ensure the safety of its employees and subcontractors at work but they in turn have a duty to take care of themselves, colleagues and others who may be affected by what they do.

The Handbook is designed for distribution by AIS FPDC members to site operatives as a tool to help remind them of the hazards that they may encounter every day in their job and assist them in meeting company health and safety requirements.

Each handbook will be overprinted with members' details on the back cover.
