

CPD Seminar

An Essential Guide to Safe, Practical and Aesthetic Roof, Ceiling, Wall and Floor Access Solutions

The CPD from Access 360: Safe Access All Areas, covers a full range of access products providing a clear overview of managing access, fire, safety and security requirements in your building, from smoke vents, roof access hatches and ladders to fire rated riser doors and steel doors, wall and ceiling access panels and floor access covers and doors.

Looking at the most appropriate solutions for access requirements, this CPD examines what considerations should be made when specifying these products for a project.

The CPD gives a good overview of the safe, practical and aesthetic choices for access solutions and is intended to give the audience a clear understanding of the key factors that need to be considered and the hazards presented when incorrect options and assumptions are made.

Brief Outline of the CPD Content

- Purpose and reason for access
- Fire ratings and certification
- Smoke ventilation including access and safe operation
- Specification of riser doors, roof, ceiling, wall and floor access
- Identifying and overcoming access challenges
- Design considerations
- Weight loading and configurations
- Relevant regulations and standards

SMOKE VENTS

ROOF ACCESS

WALL AND CEILING ACCESS

FLOOR ACCESS DOORS

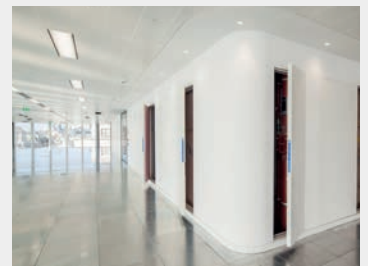

FLOOR ACCESS COVERS

SMOKE VENTS

ROOF ACCESS HATCHES

RISER DOORS

CEILING ACCESS PANELS

FLOOR ACCESS COVERS
