

Registering as a STEM Ambassador

1. Go to <https://www.stem.org.uk/stem-ambassadors> and click 'Join the STEM Ambassador Programme'

STEM Ambassadors

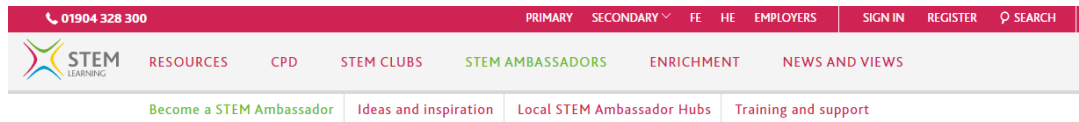

STEM Ambassadors are volunteers from a wide range of science, technology, engineering and mathematics (STEM) related jobs and disciplines across the UK. They offer their time and enthusiasm to help bring STEM subjects to life and demonstrate the value of them in life and careers.

STEM Ambassadors are an important and exciting free of charge resource for teachers and others engaging with young people inside and out of the classroom.

We have made it simple to get involved. Once you have registered, you can find a STEM Ambassador or get involved in an activity from your dashboard.

2. Choose 'Register as a STEM Ambassador Volunteer'

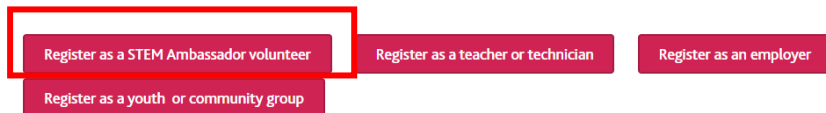

Join the STEM Ambassador programme

Being a STEM Ambassador is about engaging and enthusing young people with science, technology, engineering and mathematics. You will help encourage students to consider further study of STEM subjects and progression into related careers, inspiring the next generation of STEM professionals.

It offers the chance to give something back to education and the wider community, whilst giving you the chance to develop your own skills and improve yourself.

"Being a STEM Ambassador is probably the most satisfying aspect of my career. Inspiring kids for the future is the pinnacle of what's possible and it's tremendous fun too!" - Derek Langley, Product Manager at Thales

Benefits of being a STEM Ambassador

3. Complete the initial registration page and click 'Continue'. You will also need to tick the box to confirm you are not a robot.

Note: You will need to use your full name as it appears on your identification documents.

Title *

Miss

Holly

Jones

IMPORTANT: If you are registering for a **STEM Ambassador** account, please ensure that the first name and surname you provide are identical to your official ID documents as these will be needed to carry out your Disclosure and Barring Service check (DBS).

4. Complete all the sections on the next registration page. Fields with red stars are required. If you are a member for a professional institution you can list them. You

can also select your activity preferences for example, the types of activities you would like to take part in, or age groups you'd like to work with. By completing the 'My Activity Preference field' the system will automatically show you activities it thinks you would be suitable for once you are an approved ambassador

Note: To register as a STEM Ambassador, we will need to carry out a Disclosure and Barring Service check (DBS) which requires a gender to be disclosed. While we recognise that gender is not limited to male or female, the system currently only accepts these options in order for the DBS to be processed.

You can identify yourself as an Ambassador to your employer by adding your organisation and location. You should also tick the box to say you are happy to have your details shared with your employer. Don't worry, you can change this at any time. We will only share your name, email address, number of volunteering hours and account status (e.g. where you are up to in the process of becoming an ambassador). We may also share the date of your next activity if your employer asks for this.

Please tick if you are happy for us to share your STEM Ambassador volunteer work and contact details with your employer.

This will typically be your name and contact details but in larger organisations an additional identifier may be required, eg location.

My current employer

Job title *

Are you taking part on the suggestion of your employer?

Name of person who would be responsible for volunteering work within your organisation, if known

You can also add any professional institutions that you are a member of. Again, you should also tick the box to say you are happy to have your details shared with your professional institution. Don't worry, you can change this at any time. We will only share your name, email address, number of volunteering hours and account status (e.g. where you are up to in the process of becoming an ambassador). We may also share the date of your next activity if your professional institution asks for this.

Professional Institution Membership

I am a member of one or more professional institutions/trade associations

Institution of Civil Engineers (ICE) x

Please tick if you are happy for us to share your STEM Ambassador volunteer work and contact details with the professional institutions you are a member of.

5. After you have submitted your registration form. You will receive an email from STEM learning letting you know the next steps. You may also receive an email from them asking you to verify your email address. Within 5 working days you will also receive an email from the STEM team at hub Transpennine. This will contain further information about how to complete your DBS check and online induction.

Thank you for registering!

You should receive an account verification email from us shortly. If you have not received your email within 24 hours please contact support@stem.org.uk.
